## Immigration Rules Appendix Skilled Occupations

Eligible SOC 2020 occupation codes and going rates for Skilled Worker, Global Business Mobility and Scale-up routes

In this Appendix:

- “SW” refers to the Skilled Worker route
- “GBM” refers to the Global Business Mobility routes
- “GTR” refers to the Global Business Mobility - Graduate Trainee route
- “SCU” refers to the Scale-up route

## Table 1: Eligible SOC 2020 occupation codes and related going rates based on median Annual Survey of Hours and Earnings (ASHE) data

These SOC 2020 occupation codes are considered to be skilled to Regulated Qualifications Framework (RQF) level 6 or above, and are eligible for the Skilled Worker route.

Going rates in Table 1 are per year and based on a 37.5-hour working week. They must be pro-rated for other working patterns, based on the weekly working hours stated by the applicant's sponsor. Options A to E refer to the points options set out in Appendix Skilled Worker.

The going rates and associated reductions which apply are whichever is the higher of:

- the rate shown by the median ASHE data for that occupation; or
- £17.13 per hour

For the avoidance of doubt, where £17.13 per hour calculates as more than 70%, 80% or 90% of the stated going rate, £17.13 will nevertheless be taken to be 70%, 80% or 90% of the going rate, as applicable.

Only the going rate column applies to Skilled Worker settlement applications; the columns setting out 70%, 80% and 90% of the going rate do not apply.

**Table 1a: Additional eligible SOC 2020 occupation codes and related going rates for Skilled Worker applicants granted permission under the rules in place before 22 July 2025**

These SOC 2020 occupation codes are considered to be skilled to Regulated Qualifications Framework (RQF) level 3-5, other than “6135 Care workers and home carers”, which is considered to be skilled to RQF level 2.

Except where option D or the Temporary Shortage List in SW 6.1A applies, sponsors may **ONLY** sponsor Skilled Worker applicants in these SOC2020 occupation codes if the applicant was granted permission as a Skilled Worker under the rules in place before 22 July 2025, and they have had continuous permission as a Skilled Worker since then.

Other than skill level, the notes accompanying Table 1 also apply to this table.

## **Table 2: Eligible SOC 2020 occupation codes and related going rates based on 25th percentile Annual Survey of Hours and Earnings (ASHE) data**

These SOC 2020 occupation codes are considered to be skilled to Regulated Qualifications Framework (RQF) level 6 or above, and are eligible for the Skilled Worker, Global Business Mobility and Scale-up routes.

Going rates in Table 2 are per year and based on a 37.5-hour working week. They must be pro-rated for other working patterns, based on the weekly working hours stated by the applicant's sponsor. Options F to J refer to the points options set out in Appendix Skilled Worker.

The going rates and associated reductions which apply are whichever is the higher of:

- the rate shown by the 25th percentile ASHE data for that occupation; or
- £12.82 per hour

For the avoidance of doubt, where £12.82 per hour calculates as more than 70%, 80% or 90% of the stated going rate, £12.82 will nevertheless be taken

to be 70%, 80% or 90% of the going rate, as applicable.

Only the going rate column applies to Skilled Worker settlement applications; the columns setting out 70%, 80% and 90% of the going rate do not apply.

Equivalent SOC 2010 occupation codes are included where they were previously eligible for the Skilled Worker route, for ease of matching to the relevant SOC 2020 occupation codes for applicants being sponsored to continue working in the same occupation.
